Do you love to work outside?

***Are you interested in learning about Plant pathology, Microbiology,
Horticulture, Silviculture and much more?***

Internship duties can include:

- planting and general maintenance at Penn State Arboretum orchard
- assisting in pollination and inoculation activities around the state, especially in the eastern half of PA
- some administrative duties
- evaluation of trees planted at current chestnut orchards
- scouting for wild American chestnut tree locations

Requirements:

- extensive travel may be involved, candidate must have own vehicle and current driver's license
- some training in forest dendrology/taxonomy
- experience with tractor, mower and/or small equipment preferred
- ability to work well with many types of people, enjoy working outside and have a positive attitude
- somewhat computer savvy
