

# ARBORICULTURE INTERNSHIP (PA, DE, MD, VA, TN)

## Overview

Looking for a company that can take you places? You've found it. Bartlett Tree Experts has become the premier scientific tree and shrub care company through groundbreaking research and development. Here people thrive in a safety-first, entrepreneurial, promote-from-within environment. Many of our management and sales staff began as interns and later became full-time employees after graduation. Now is your chance to join our talented team as an Intern and realize your most ambitious goals as you grow right along with us. To apply for this position please visit the [Bartlett Tree Experts Careers website](#).

## Qualifications

- The ideal candidate will be pursuing a bachelor's or associates degree in Arboriculture, Forestry, Horticulture, Plant Science, Landscape Design, or a related field

## Responsibilities

Our 8-12 week paid internships have been designed to challenge students to learn and prosper in the arboriculture field, while being mentored by the best minds in the industry.

- **History** | Understanding of tree species and the evolutionary and ecological relationships among them, historical significance, and the utility of uses of the species
- **Culture** | Understanding the species-specific tolerance of soils and nutrients and the functions of the soil management program including soil sampling, prescription fertilization treatments, and root invigoration
- **Concerns** | Understanding the functions of the integrated pest management program including inspections, insect and disease management, sampling, treatments, equipment maintenance, and client relations
- **Management** | Understanding client needs and how to develop a species-specific needs assessment, management plan, and contract

Bartlett Tree Experts was founded in 1907 by Francis A. Bartlett and is the world's leading scientific tree and shrub care company. From its 100 plus offices worldwide, Bartlett helps both residential and commercial customers maintain beautiful, healthy trees.
