Manager:	_____	_____	_____	_____

Location: GS Quad: _____ Description:

Date of Planting: _____ # Seed Planted _____ Elevation: _____ft. Slope: _____ Soil type: _____Aspect_____

These maps allow PATACF to keep better track of your orchard. By filling out this map, you help me keep the Pennsylvania chapter's statistics exciting and up-to-date! Please map the layout of your orchard onto this map. Label rows and postitions. Code the positions so that the cross of a tree in any position may be determined. At the end of the growing season, denote whether a tree in a particular position is dead or not. A sample of a completed map may be found on the website. If your orchard exceeds the rows and positions offered by this map, please draw one of your own using a similar system. Oh, and don't forget to add that ***large, visible metal stake at position 1!***
