Main St.

These maps allow PATACF to keep better track of your orchard. By filling out this map, you help me keep the Pennsylvania chapter's statistics exciting and up-to-date! Please map the layout of your orchard onto this map. Label rows and positions. Code the positions so that the cross of a tree in any position may be determined. At the end of the growing season, denote whether a tree in a particular position is dead or not. A sample of a completed map may be found on the website. If your orchard exceeds the rows and positions offered by this map, please draw one of your own using a similar system. Oh, and don't forget to add that ***large, visible metal stake at position 1!***

Summary Statistics

Summary Notes

PA #	Cross Code optional	Map Code	# Seed Planted	# Germinated by 7/15	# Alive 9/15	Notes:
