

2 WEEK STUDY TOUR TO SOUTHERN AFRICA

FOR 497E: Natural Resources of Southern Africa

Spring 2010

1 credit

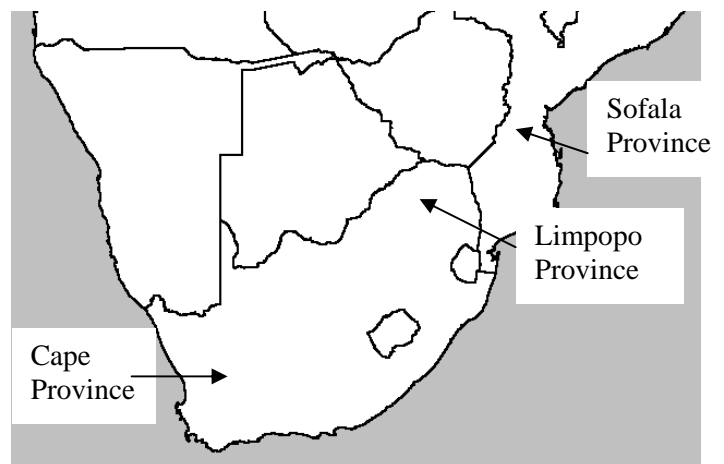

(or take it concurrently with Agroforestry: FOR 418)

FOR 418: a 3 credit course to foster a practical working knowledge of the design and function of agroforestry practices as they are applied throughout the world.

FOR 497E: will meet during the semester to discuss forestry and natural resource management issues in southern Africa, and will culminate with a two week study tour to Mozambique and South Africa visiting three distinct geographical regions:

- Sofala Province (Beira, Zambezi River, Gorongosa National Park)
- Limpopo Province (Tzaneen, Sabie, and Kruger National Park)
- Cape Province (Cape Town, Stellenbosch)

Tour highlights include FSC Forest Concessions, Ecotourism and Community Development in Mozambique. In South Africa: Forest Plantations and Industry, Table mountain forests, Carbon neutral farms and wineries.
