

Management of Commercial Fisheries: Part 3 Research Paper Assignment

Your research paper must be on fishery anywhere in the World. The paper must be at least 3 typed pages that are double-spaced and typed in 12-size font.

Format for the paper is as follows-

1. Introduction- name of fishery, where it is located, type of fishery (fresh or salt water), types of products found in fishery, and annual harvest of fishery.
2. Body- history of fishery as far back as you can find, types of fishing methods used, health of the fishery, any regulations or special laws regarding the fishery, any management techniques used on the fishery, any ecological problems with the fishery such as dams or pollution, and present condition of the fishery compared to the past.
3. Conclusion- future outlook for the fishery, how you would manage the fishery if it was under your control (using information you learned in class and from your research).

You must have a cover page and a reference page for you paper.

Be sure to give credit in you paper for any materials used, no plagiarism.
