

Tree Identification

<p>Opposite Leaves</p>	 An illustration of a stem with two pairs of opposite, ovate leaves. The leaves are light green with a central vein and are set against a dark brown background.
<p>Alternate Leaves</p>	 An illustration of a stem with several alternate, ovate leaves. The leaves are green and arranged in a regular, alternating pattern along the stem.
<p>Entire Margins</p>	 An illustration of a single green leaf with a smooth, entire margin. The leaf is shown against a light blue background with a white spiral pattern.
<p>Lobed Margins</p>	 An illustration of two lobed leaves. One is a large, dark green leaf with a prominent central vein and a lobed margin. The other is a smaller, lighter green leaf with a similar lobed margin. They are set against a tan background.
<p>Toothed Margins</p>	 A close-up photograph of a green leaf with a serrated, toothed margin. The leaf is bright green and shows clear venation.
